

## **The rise of EMEX**

The Energy Management Exhibition (EMEX) held at the ExCel London, is the most prestigious energy event which helps thousands of businesses from all sectors to increase their energy efficiency and reduce their operational costs.

The show, which began in 2014, establishes and builds partnerships between businesses of various sizes and sectors. With over 150 exhibitors, EMEX has become a unique platform where experts from various backgrounds come together to learn about new technology systems and services available in this fast-changing environment.

Across the two-day event, key show zones will address; Utilities and Energy Services, Training, Energy in Facility Management and Energy Management Solutions. Supporting exhibitors range from major utilities to brokers and consultants, like Green Energy Consulting.

Green Energy Consulting specialises in energy efficiency and sustainability and EMEX has been a great platform to build on an already impressive client portfolio. Now coming into the fourth year, Green Energy Consulting has championed the show from the very beginning and has maximised their stand size and appearance year on year.

At this year's event, as well as having a featured stand space of 50 m<sup>2</sup>, Green Energy Consulting have also taken pride in acquiring lanyard sponsorship. Green Energy Consulting would like to thank Jason Frank's and Lord Rupert Redesdale for organising such a fantastic event that we're delighted to be a part of.

The event is attended by over 5,000 major energy users and with the support from exhibitors and seminars, businesses of all sizes will benefit from opportunities and insights into how energy efficiency can help them take part in this emerging economy.

Green Energy Consulting will be exhibiting at the 2017 show on stand D10 at the entrance to the hall. Whether you are looking for a reduction in energy expenditure or to enhance your green credentials, Green Energy Consulting can help with all of your energy needs.
